SCHOOL VISION, MISSION AND VALUES

VISION

We envision our school as a learning community where quality education, based on Christian beliefs and values, is offered in a joyful and stimulating setting. We believe that the foundation of this learning community and the quality education process is based on the joint partnership among teachers, parents and students.

MISSION

We are determined to develop our school based on the **CARES** principles where:

C stands for CREATIVITY & CRITICAL THINKING

We foster an environment that encourages the development of creativity and critical thinking.

A stands for ACHIEVEMENT

We believe that every student has gifts from God and potential for development and we aim to draw the best from the student in order to achieve his/her full potential.

R stands for RESILIENCE & RESPONSIBILITY

We help each student to develop resilience and responsibility: to stand strong amidst adversities and to act as a responsible citizen.

E stands for ENGLISH PROFICIENCY, EMPOWERMENT & EXCELLENCE

We empower our students and staff to strive for excellence through an English-speaking environment in school.

S stands for SERVICE & SPIRIT

We place special emphasis on community service to reflect the Christian spirit of service to the less advantaged and the least of the least.

Our Long Term Development Goal is to build an EMI learning and caring community with international flavour which caters for international as well as local students. We aim to help students excel in education in terms of added value and critical learning.

SCHOOL VISION, MISSION AND VALUES

VALUES

In our daily interactions with every member of the school community – students, colleagues and support staff – we will endeavour to:

Build a community that cares

- Value each and every person equally and treat everyone fairly and justly.
- Work together and recognize that every individual has something to contribute: “None of us is as good as all of us!”
- Encourage one another to build on previous achievements and praise positive steps in the right direction.
- When mistakes are made, try to discover the reasons why, empathize and take reasonable and appropriate action.
- To choose to be positive in the way that we view our community and actively express praise and gratitude.

Serve one another in love

- Care for each other in very practical ways.
- Adopt an attitude which continually asks, “How can I help you?”

Respect ourselves and others

- Celebrate our different cultures.
- Respect each other’s points of view, opinions and beliefs, and tolerate our differences.
- Don’t hold grudges and forgive each other quickly.

Be responsible

- Take full responsibility for all that we say and do.
- Make carefully considered decisions and follow through with determination.
- Be reflective and committed to ongoing personal and professional improvement.
- “No complaining without a positive solution!” Be 100% committed to being ‘part of the solution’ rather than choosing to complain about difficulties we encounter.

Act with integrity

- Strive for professional excellence at all times.
- Recognize and fulfill our vocational responsibility as stewards of students’ potential.
- Protect the children who have been placed in our care.
- Be a role model and ensure that our words and actions are consistent.
- Do not listen to or spread gossip about students or colleagues.

These values can be summed up in the **golden rule**, first expressed more than 2,000 years ago by Jesus, who said, “In everything, do to others what you would have them do to you.” (Matthew 7:12.) Or, as expressed in The Message version, “Here is a simple, rule-of-thumb guide for behaviour: Ask yourself what you want people to do for you, then grab the initiative and do it for them. Add up God’s Law and Prophets and this is what you get.”

MAJOR CONCERNS FOR 2011/2012 – 2013/2014

- Empower students in line with the school's vision, mission and values by promoting positive values, attitudes, behaviour and respect for others in a multi-cultural environment
- Continue to raise academic standard
- Cater for the learning diversity of students by introducing International General Certificate of Secondary Education and UK General Certificate of Education (A-Level) curricula and further developing the curriculum of Hong Kong Diploma of Secondary Education
- Enhance student's sense of ownership of learning
- Develop online learning platform to further engage parents in their children's learning
- Strengthen the administrative process with the aim of facilitating greater school effectiveness

SWOT Analysis

Our Strengths

- The international and multi-cultural environment provides students various experience in studying and interacting with students and teachers from different background
- Christian ethos provides school and teachers a clear direction in nurturing students.
- The tailor-made SGDS provides an in-depth and all-round pastoral system to further support students and parents
- With the support YMCA of Hon Kong, the school sponsoring body, more richness in cultural diversity and integration can be obtained through its network with the global community
- Offer local (HKDSE) and international curricula (IGCSE and GCE A-level) to cater for various students' individual education needs.
- The green and spacious school site provides students a nice environment for different learning activities (i.e. academic, sports, music, visual arts and performing arts)
- The flexibility of DSS system provides School opportunities in formulating various creative strategies in educating students.
- Students dedicated in participating in different extra-curricula activities are achieved outstanding performances in the inter-school competitions.

Our Weaknesses

- Teaching staff required to spent tremendous effort in designing an appropriate curriculum to integrate the features of the local and international curricula.
- School needs to allocate additional resources in order to develop a tailor-made pastoral programme and PSE programme to cater for students' various cultural background
- A series of systematic professional staff training needs to be arranged, especially the young and newly recruited teachers in order to support them in settling in a multi-cultural and international learning environment

Our Opportunities

- The English standard of students, the multi-cultural setting of the School and a variety of curriculum make the School become unique in the

YMCA of Hong Kong Christian College

港青基信書院

district

- DSS system offers school flexibility in student admissions, staff recruitment and curriculum design
- Parents of primary schools interested in sending their children to the international style setting school.
- Our Integrated Curriculum and offer of HKDSE and GCE A-Level attracts a wider range of students and parents to the school.

Our Threats

- New EDB guidelines are tightening the autonomy and flexibility of the operation of DSS schools
- The current EDB policy restricted the School's future expansion by admitting more students who desire for the international style and EMI education.
- Turnover of students due to family relocation

Major Concerns for a period of 3 school years

1. To continue to raise academic standards and students' ownership of learning
2. To cultivate the YHKCC model of all rounded education to further strengthen the student development programme
3. To foster the administration system in order to support the learning and teaching activities.
